In the House of Representatives, Saturday was wholly occupied in discussing Mr. HICKMAN's motion to adopt the plurality rule.—Without coming to a vote on the subject, the House adjourned over until to-day.

The Southern Extremists.

In the debate in the U. S. Senate, on Wednesday, about Harper's Ferry and its incidents, Senator IVERSON, of Georgia, a leading Southern Democrat, thus delivered himself:

> The disclaimers by Republicans of sympathy with Brown are not worth the paper they are written upon. Their actions speak louder than words. What do the New York *Tribune* and Albany *Journal* say, the organs of the Republican party. He believed that the Northern portion of the Democratic party was as rotten as the Republicans. There is no difference between Senator Douglas and his supporters on this vital question and Black Republicans themselves. Mr. Sherman disclaims knowledge of the contents of Helper's book, but he ought to have known what they were before endorsing it. The South stands on the brink of a volcano and unless they take timely action what will be the consequence? He presumed that Mr. Sherman would be elected, for doubtless traitors enough would be found in the ranks of the anti-Lecompton Democrats. But if such should be the case, he would counsel the Southern members of Congress to retire from these halls, and let the Union be dissolved.

In the House of Representatives, on the same day, Mr. PRYOR, of Virginia, pitched into Mr. NELSON, of Tennessee, an opposition member, for venturing to say that the Union was not necessarily "dissolved" by the election of a Republican President. Mr. PRYOR said:

> That Mr. Nelson had endeavored to put the South in a position they would not sustain. The gentleman from Tennessee had told the House he loved the Constitution, but his language above all others was calculated to hurry on an inevitable catastrophe, when he in face of foes proclaimed there was no danger. He (Pryor) objected to Mr. Nelson's remarks being received as the exposition of popular sentiments in the South. The gentleman had thrown himself into the ranks of the Black Republican opposition. He (Pryor) contended that the protection designed to be afforded by the Fathers of the Government has been prostituted to the aims of sectional fanaticism. The Representatives of the South will never consent that the creature and champion of the Republican party (meaning Sherman) shall take possession of the Speaker's chair.

The following colloquy ensued between three Southern members:

> Mr. Bonham understood the gentleman to put the Union above the Constitution.
>
> Mr. Nelson—I put them together; for one cannot exist without the other. [Applause.] He said that if Mr. Pryor was a disunionist or a secessionist, he did not believe that gentleman represented the sentiments of the South. As far as Tennessee was concerned, he could stand up and say, that no man there of any note sympathises with the disunion sentiment. [Applause.]
>
> Mr. Pryor enquired of Mr. Nelson whether he, as a representative of a Southern constituency, in the event of the election of a Black Republican President, would vote to remain in the Union.
>
> Mr. Nelson spoke only for himself. Much as he would deprecate such an event, yet he did not believe that the election of a Black Republican President would of itself, be cause for dissolution, for they ought to wait and see whether he would do anything injurious to the rights of the South. [Applause.] In further reply to Mr. Pryor he said that if such a President should commit an overt act, he would link his shield with those of the secessionists to right the wrong.
>
> Several gentlemen asked questions of Mr. Nelson which he pertinently and good humoredly answered. Mr. Nelson repelled, as a foul calumny, the charge that he had any political association with Republicans. He would vote for any good national man for Speaker. In further reply to Mr. Pryor, he uttered Union loving sentiments, which, as before, were rapturously applauded.

Mr. NELSON, evidently, had the best of it. A few more sensible and discreet men like himself, from the South, would be a decided improvement upon the complexion of that side of the House.

TARRING AND FEATHERING AT SAVANNAH.—The Savannah *Republican*, of Dec 2d, reports that one SEWALL H. FISK, a shoe-dealer in that city, was tarred and feathered by certain chivalrous Georgians on the previous night—his offence being the utterance of Abolition doctrines. The *Republican* describes the scene as follows:

> Sewall H. Fisk, a dealer in boots and shoes on Market Square, of several years standing, has been the object of suspicion for some time, in consequence of his known Abolition proclivities, which he has taken, as we are informed, some trouble to make known to our slave population. His latest acts are, enticing negroes into his cellar at night, reading them all sorts of Abolition documents, and last Sunday night was devoted especially to the history of the trial of John Brown, and a general exhortation upon the institution of Slavery and the advantages of freedom.—These facts, as we hear, were sworn to before a Justice of the Peace by his nephew and his clerk; and coming to the ears of some parties who have constituted themselves a quasi-vigilance Committee, Mr. Fisk's store, over or in which he sleeps, was visited, and he was called out and gagged before he could make either noise or resistance. He was then placed in a carriage, and driven a short distance from the city, and the application made to his *nude* person. He was then left to find his way back, as best he could. His first appearance in the limits was near the hospital, where he came in sight of a watchman, who was so alarmed at the sight that he gave a spasmodic jerk to his rattle and took to his heels, not willing to face so dreadful an apparition. A reinforcement, however, was brave enough to approach him when he was conducted home, the most pitiable object it is possible to imagine. Not a spot of his skin was visible, and his hair was trimmed close to his head.

CHICAGO BIBLE SOCIETY.—The anniversary meeting of the Chicago Bible Society will be held at Metropolitan Hall, in that city, on Sunday evening next, at 7 o'clock. Sermon by Rev. Z. M. HUMPHREY. Addresses by Rev. W. F. STEWART and Prof. F. W. FISK. The annual meeting of the Society for the election of officers and transaction of business, will take place on Tuesday evening next, at the Lecture Room of the Second Presbyterian Church.

MELANCHOLY AFFAIR.—The Markesan *Journal* gives an account of the death of Miss S. CALDWELL, of Manchester, Green Lake County—she having accidentally swallowed a large dose of arsenic. She leaves a large circle of friends and acquaintances to mourn her loss.

BROCKWAY COLLEGE.—The present term of the Brockway College, at Ripon, will close on Friday the 20th inst. The Winter term of 14 weeks will commence on the 4th of January, 1860.

FIRE IN TREMPELEAU CO.—The large warehouse, at Nelson's Landing, just above Trempeleau City, and owned by T. B. WILSON & Co., of Reed's Landing, was burned to the ground last Thursday.

A CANAL BOAT constructed by J. Wilkinson, of Bradley Forge, England, in 1787, is supposed to have been the first iron boat ever built. The next one was launched on the Mersey in 1815, by Thomas Jerona of Liverpool. The Aaron Manby, built in Straffordshire, and launched in London, in 1821, was the first iron steam vessel.

LARGE discoveries of antique gold articles have been made in Ireland. In the neighborhood of Athlone the value of the gold taken out is estimated at twenty-seven thousand pounds sterling. The relics are melted up by the gold refiners of London in a remorseless manner.

FROM WASHINGTON.

The Contest for Speaker—The Plurality Rule the Only Chance for an Organization—The Democratic Disunionists—Interesting Debate—Decided Stand of the Southern Opposition—Great Speech by Nelson, of Tennessee—Harper's Ferry in the Senate—The Republicans for a Thorough Investigation.

From our Special Correspondent.

WASHINGTON, Dec 8, 1859.

Wednesday brought a second ballot for Speaker and also a very interesting debate, chiefly between the fire-eating Democracy and the Southern Opposition. The balloting showed a still divided Opposition and not even a complete connection of the Republican vote such as was reasonably expected. Sherman received five less than the number which he was fairly entitled to, and nine less than was required for an election. Many of his friends still hope an absolute majority for him. His only chance, it seems to me, is in the adoption of the plurality rule. The Republicans very properly show an inclination to adhere to him throughout, despite the violent attacks upon him from the Southern side, and the malignant detractions daily uttered by the Government organ. These but confirm the party more strongly in his support.

The debate was one of rare interest, and marked by the signal victory of Mr. Nelson, of Tennessee, as a champion of Union and anti-Administration over the Fire-eating declamations, chiefly presented by Mr. Lamar, of Mississippi, and Mr Pryor, of Virginia, but cheered on by the Democratic side generally. Mr. Nelson is one of the ablest of the Southern Opposition members. Mr. Pryor was badly worsted in the combat into which he hastily rushed. The Disunionists had previously commanded most of the applause in the galleries, and on the Democratic side also. Nearly every Republican applauded Mr. Nelson's national sentiments, and before he had closed, he had the galleries, and even part of the Democratic wing, spontaneously and enthusiastically endorsing him. He dealt some most effective blows upon the Administration party, besides demolishing its youthful champion, late editor of the Washington States, and now Representive of the Petersburg District.

Mr. Morris, of Pennsylvania, followed in admirable speech, repelling Southern calumnies and threats of disunion.

Mr. Snydenham Moore, of Alabama, followed, in a rank disunion speech.

Mr. Corwin then made a characteristic speech, which was listened to with the closest attention and had a fine effect. He kept Southern as well as Northern members in a constant roar of laughter.

The Administration begin to get anxious to have an organization effected. The Republicans leave the responsibility where it belongs and do all in their power to prevent delay.

In the Senate, the Harper's Ferry debate was continued yesterday, and some admirable things were said by Mr. Fessenden and other Republican Senators. It is hardly necessary to say that all Republicans, in both Houses, will favor the full investigation of that affair. The Senators ask that the similar capture of the United States Arsenal, at Liberty, Missouri, by Buford's Southern ruffians, which preceded, and is directly involved with Brown's movements, should be included in the investigation. This, strangely enough, the Democrats resist.—*Cincinnati Gazette.*

ROBBERY AT HORICON.—On Monday night, the store of C. Brown was broken open, and goods were abstracted to the amount of $75 to $100. It is not known how many persons were concerned in this burglarious proceeding, but, evidently, more than one. They entered by a back-cellar door, and made their way to the store-room above, without awaking a clerk who slept in a room upon the second floor.

P. S.—Since writing the above John and George Chandlea have been lodged in jail, and a man by the name of Van Scork is now under arrest to await trial. The stolen goods were found on Wednesday night, secreted in a straw-stack upon the farm of Jerry Chandler. Thanks to the efficient Constable, Charley Warwick.—*Horicon Argus.*

A FEARFUL WARNING TO PARENTS.—A little boy, named Theodore Buck, aged 4 years, met with a sad and cruel fate a day or two since in the following manner:—The hapless little one, it appears, was in its night clothes, and, during the absence of its mother, amused itself by igniting matches, which had incautiously been left in its way. These soon set his clothes in a flame, and before assistance could be rendered the little boy was burned to a black and bleeding crisp.—The little sufferer lingered for several hours in an apparently unconscious condition, when he expired. We hope this warning will have the effect of causing parents and others to put matches and other combustibles out of the reach of their children.—*Philadelphia Evening Journal.*

THE JUMPERTZ CASE CLOSED—THE JURY STILL OUT—Last evening saw this important and protracted trial drawn to a close. District Attorney Haven occupied the main part of the session with his argument; which is universally pronounced one of the most able and eloquent efforts in the criminal practice of this city. The instructions of the counsel were then given by Judge Goodrich to the jury, and the Court adjourned at 6 o'clock, to meet again at 10 P. M. At that hour the Court-room was again crowded, but word was sent from the jury-room that they were not in readiness, when the Court adjourned to 9 A. M. to-day. —*Chicago Tribune of Saturday.*

The total valuation of the real and personal property of the city is $1,369,812.—*Janesville Gazette.*

THE HALL of the Doges, at Venice, is yielding to the effects of time, and all lovers of art will regret to hear that it threatens to fall. A fresco on the ceiling is cracked across and a portion of it has fallen. The hall is the largest in Europe, and among the other works of art contains one by Tintoretti, called the "Happiness of the Blessed," which is one of the largest paintings in existence.

A DISGUSTED DOCTOR.—A German doctor, in Hanover, Penn., recently attempted to apply phosphorus to a daughter of Peter Reed, for the cure of a sore throat. The phosphorus ignited, set fire to the girl's clothing, burned her severely, and also set the house in flames. So disgusted was the doctor at the result that he attempted to blow his brains out the next day.

A LITTLE son of Joseph Thompson, of Morris, O., was drowned in a swill-tub from which he was dipping swill to feed to hogs. The father had just returned from attending the funeral of a child which had been burnt to death, and was relating the circumstances to his wife, when the boy went out, and was next found drowned in the manner we have stated.

IN ORDER to protect travellers from bandits, Surrya Pashaw, Governor of Palestine, has ordered thirty block houses, to be occupied by troops, shall be constructed at intervals on the roads from Jaffa to Jerusalem, from Jerusalem to Ebron, and from Ramleh to Gaza. The foreign counsels have thanked him for this measure.

THE JEWISH Messenger of December 2, publishes gloomy news in regard to the condition of the Israelites in Morocco. Hundreds of families have fled from Tangiers to avoid Spaniards, Moors and Cabyles.—Twenty-seven hundred of these fugitives had arrived at Gibraltar. The Jews in London have responded to the call for aid, and assistance is also hoped from the prosperous Isrealites in America.

THE Democratic objection to Old Brown, is, that he was running niggers North instead of South. It is simply the direction in which he was traveling the colored persons that the Democracy take exceptions to. Had he been running darkies out of Canada into Virginia, instead of *vice versa*, the chivalry would be elevating him to Congress rather than on a gallows.

THE *State Gazette*, published at Austin, Texas, divulges the alarming information that a gentleman residing in Bastrop county, met on the Mississippi river last summer, parties having printed books describing the best locality in the State for those opposed to slavery to settle.

IT IS REPORTED at Vienna that an autograph letter of the Emperor would soon be published, which will annul all the restrictions since 1851 on the Jews in Austria, and enabling them to again be the possessors of landed property.

THE CITY.

Magazines for Binding.

As the year draws to a close, and with it the volumes of the many periodicals subscribed for by our readers, we would call attention to the facilities at the SENTINEL BINDERY for putting all kinds of periodical literature in a durable and convenient shape, at a reasonable price. Let those who have magazines bring them to the SENTINEL office and have them bound. We are also prepared to execute orders for blank books of the heaviest and most ornate description, and are constantly furnishing Ledgers and every variety of business account books to Merchants. Our means of executing durable and ornamental binding are un-equalled. Give us a call.

Milwaukee and her Southwestern R. R. Connections.

The recent opening of the Racine & Mississippi R. R. to Freeport and the direct communication thus afforded to Milwaukee with Northwestern Illinois, has naturally attracted the attention of our Merchants and Produce Dealers, and prompted an effort to secure a portion of the trade of that rich and populous region. A few days since a party of our leading Business Men left here by the Lake Shore R. R., and taking the Racine & Mississippi cars at Racine, reached Freeport, 128 miles from Milwaukee, at 5 in the afternoon; stopping on the way, at Burlington, Delavan, Beloit, and other points. Freeport is a neat, stirring and prosperous city of some seven, or eight thousand souls; and is surrounded by a very fine farming country. The Milwaukee party were well received by the People of Freeport and the foundation was laid for permanent business connections between the two cities.

The Lake Shore and the Racine and Mississippi Rail Roads are both among the best built and best managed thoroughfares in the West, and their business is steadily on the increase. On the return of the Excursion Party home, a meeting was convened at the Newhall House; L. H. KELLOGG called to the Chair, and CHESTER STEELE appointed Secretary.

On motion of E. B. DICKERMAN, the following resolutions were adopted:

> *Resolved*, That the trip has enabled us to see a section of country generally unknown to our citizens, and brought us into a pleasant acquaintance with the people of Southern Wisconsin and Northern Illinois, and the good and careful management of the Milwaukee & Chicago, and the Racine & Mississippi Railroads, afford the most direct inter-communication for the freight and travel of Northern Illinois and Southern Wisconsin to Milwaukee.
>
> *Resolved*, That we are indebted to the courtesies of Col. Hall, of the Milwaukee & Chicago Road, and Matthew Taylor, Assistant Manager, and Robert Harris, Superintendent of the Racine & Mississippi Road, for those gentlemanly attentions, so necessary to render a trip of this kind, at once agreeable to us as men and useful as citizens.
>
> *Resolved*, That at Freeport we were most kindly received by the business men of that thriving and beautiful city, and that we trust that the new relations thus formed will alike conduce to the business and welfare of both Freeport and Milwaukee, and to the numerous and flourishing villages in Illinois and Wisconsin, on the line of the Racine & Mississippi Railroad.
>
> L. H. KELLOGG, President.
>
> CHESTER STEELE, Secretary.

BUCKWHEAT CAKES of a cold morning, hey? Don't your heart palpitate with the expectation of molasses and cakes? Do you remember, a good many years ago, how you went to bed an hour earlier when the morning was to bring buckwheat cakes, under the impression that the sooner you set out upon the night, the sooner the morning would come? And how, when you awoke, you sniffed a peculiar unctious flavor of something browning? To be sure you do. The cakes occupy a prominent position in your memory. Toast and muffins may be thought of with grateful sighs; the sausages of the Dutch Hercules, and the fried potatoes of Pomona are savory, but the light spongy smoking cakes of PAN, piled affectionately one on the other, a hetacomb of buckwheat; oozing between each layer with butter—oily and lucent—reign supreme in our epicurean souls. Pan-cakes are not aristocratic—so much the better. Think of reading in history that "Napoleon, having finished his buckwheat cakes, proceded to meet the Duke of Chawmyhdoff in the Council Chamber;" or, "Byron having failed to obtain an interview with the Countess of Blessington, called for a plate of pan-cakes and a bottle of soda water, and made a hasty meal." How would the divine Piccolomini appear, eating a plate of smoking *buckwheats* smothered in *lasses?* No, they are reserved for such plebes as you and we, dear reader; one of those provisions by which the poor but honest man may obtain infinite delight by means unknown to *nobs* in general.

To have good buckwheat cakes, first get the buckwheat—which, by the way, is no easy task at present—mix them well, that is, according to Mrs. HALE; provide a small spade or shingle, and after turning the batter gently on the griddle, gently turn it over, a little practice will make you expert in turning—you might practice beforehand with a flat piece of putty on a board—when the cake is done eat it and bake another.

There is a popular belief that buckwheat will give one the itch, this is either a foolish canard, prompted by the self-rising flour men, or attributable to the fact that every body is itching to get at them—the cakes—as winter sets in.

THE OPERA.—Parodi achieved a triumph last evening as *Norma*. Parodi has given us *Norma* before, gave it to us last winter, but never before brought her full vocal and dramatic power into play. The audience was a large and appreciative one, and entered into the spirit of the opera with enthusiasm, thus giving Parodi something to sing to, and she richly merited the rapturous applause and bravos which oftentimes drowned the music. She was fairly aroused, and flung out those Amazonian low notes with a power which carried everything before her. The *Casta Diva* was rendered with exquisite taste and feeling, and the beautiful rendition of *Mira Norma*, ought to give her a copyright on the opera. In action she was all that could be desired. Impetuous, haughty and tender, delivering her recitations with true dramatic fire, and interpreting the spirit of the character with her fine facial expression. She won golden opinions from all, and we hope will give us *Norma* once more.

The new American *prima donna*, Miss Hattie Brown—how modest that name looks on the programme among the *Signorinas* and unpronounceables—made her debut in *Adelgisa*. She has a very sweet soprano, peculiarly rich and pure on the high notes.—She is modest and quiet with none of the impetuous dash of Parodi, and perhaps suffered some from the contrast. She hardly uses her voice to the best advantage, but at the same time has the materials for a leading position on the lyric stage. She was cordially received and rendered her role to the satisfaction of all.—*Chicago Journal, Dec.* 8.

The PARODI troupe gives the opera of *Norma* at Albany Hall, *this* Monday, evening. The performace will, no doubt, be as great a success as the one chronicled above. The artists are all excellent ones, and the chorus and orchestra full and effective. Seats may be secured at HEMPSTED's music store on East Water street. Go early, if you want good places to-night.

FINE WINTER WEATHER.—Friday and Saturday were fine samples of our December weather. The air, though cool, was bland, the sunshine brilliant, and everybody abroad enjoying the exhilarating atmosphere. Saturday afternoon the river was alive with skates, and the Base Ball Club had a spirited game on the Fair Grounds.

BOARD OF SCHOOL COMMISSIONERS.—An adjourned meeting of the Board of School Commissioners will be held at their room this, Monday evening, at 7 o'clock. The Executive Committee are requested to meet at the Secretary's Office this afternoon at 3 o'clock.

Condition of the Steamship Milwaukee—A True and Full Statement—Her Injuries—When She will probably be got off, &c.

We take the liberty of re-publishing the greater part of an interesting letter from LEONARD H. BOOLE, in relation to the steamship *Milwaukee*:

The *Milwaukee*, Capt. Cross, left her dock at Grand Haven, on Tuesday, Nov. 28, at 6:20 A. M., with a full crew of officers and men, and everything was in good condition; the wind was from the S. S. W., which creates a heavy sea on the bar, at the mouth of Grand River, although the sea this morning was nothing to what the same vessel, together with the *Detroit*, had often experienced during the time they had been running, which is nearly four months.

While crossing the outer bar, in order to keep the steamer in the channel, it was necessary to put the wheel "hard a starboard," which order was promptly given by Captain Cross, and as promptly obeyed by the wheelsman. When about half way over, the wheel chains caught on something, (no one at the time could imagine what,) and so completely were they fixed that the united strength of four men failed to clear them, and in less time than it will take you to read this, she fell off, and her stern taking the bottom first, caused her to head to, swing around, and in an instant she was in the "breakers," making quick time for the beach.

Capt. Cross, finding the ship going ashore, ordered the feed cock of the boilers to be opened, which was immediately done by Mr. Fitzpatrick, the chief engineer; the water being thus let in the vessel causing her to settle down quietly in the sand, with but little pounding.

The officers of the insurance companies were immediately informed of the state of things, and the next 24 hours found Capt. Jas. Porter and Caleb Harrison of Milwaukee, together with Capt. G. W. Wolverton of Detroit, on the ground, with anchors, chains, and the necessary tools for wrecking; and since then Capt. Jas. Keahoe of Chicago, and the steam tug *McQueen*, Capt. Fitzgerald, have arrived.

On Friday and Saturday the weather being favorable, all the necessary arrangements were made, viz: two heavy anchors were placed in the Lake with 75 fathoms of 1 inch and 1-4 chain, and 150 fathoms of a 9 inch hawser which was carried to the forward chock on the port side. A little to the north of this with an inch and a 1-4 chain leading to the port bow, were two anchors of 22 cwt. each; farther northward still, were placed two anchors of 24 cwt. each, from which to the starboard bow was extended 100 fathoms of 1 inch and 1 8 chain; on the inboard end of each chain was a two-fold purchase fall, the ends of which were taken around the shafts of the steamer. While the hawser was placed on a powerful capstan on board (an article of increased power, with which each steamer is supplied for the purpose of handling her anchors and chains.) The arrangements being complete—all that was wanted was a nor'-wester to kick up a sea, which made its appearance at one o'clock Monday morning, and from that time until twelve o'clock Tuesday, everything worked with complete satisfaction to all on board, and although the winds were high and the sea heavy, by one o'clock Tuesday p. m., she was all afloat except about 10 feet of her stern.

At 1-4 past 2 the chain on the port bow parted—and shortly after the large chain and hawser—and (says Mr. Boole) all we could do was to stand still and watch our ship as she slowly but steadily swung round on the breakers and after giving two or three good Jumps landed on the inner bar.

Now comes the question will the Milwaukee be got off? I answer yes. The weather, however, may make it a question of time; it may take five days; it may take ten days; possibly the weather may be such as to prevent her being got off this season; but we hope for better things; at all events everything is being done that men and means can do, and we shall be sadly disappointed if we do not yet have a ride across the Lake, in the *Milwaukee* before we eat our Christmas dinner.

Too much praise cannot be awarded to the men on board the *Milwaukee* for the manner in which they worked both by day and night, without rest. When the time came to work, every one tried to see how much work he could do. Capt. Cross has not left his ship nor Mr. Fitzpatrick his engine, since the *Milwaukee* has been on the beach. Capts. Porter, Harrison and Wolverton work as hard as any of the men.

The above are the facts of the case, and you must be the judge to the propriety of putting them in print.

Respectfully, Yours,
LEONARD H. BOOLE.

ITEMS IN BRIEF.—We saw a lady, on Cass street, pursued a whole block by a snarling whiffet dog, on Saturday.——JAMES PILCHER, a lad of fifteen, fell while skating, last Friday, and sprained one of his ankles so as confine him to his bed.——Mr. WILLIAM WILEY drew the oil painting put up at the Bazaar lottery.——They are at work cutting the ice from the river; it is six or eight inches thick in *spots* and pure ice, *that's clear.*——By no means fail to go to Albany Hall to-night and hear the best Parodi on "Norma" ever uttered.——We heard a man last week object to the Bazaar of all Nations because there was no representation of a Malay there; that reminds us of the lady who objected to literature because she had to cut the pages. ——The Chicago *Times* pronounces the bridge of the Milwaukee & Chicago R. R., at Racine, unsafe.——There will be a festival given at Albany Hall, on the 28th, for the benefit of the Hospital of the Sisters of Charity on the North Point.——It cost a young man by the name of Cook $11,25 to show himself off at the Bazaar the other night, and even then a policeman had to assist him.

THE GENESEE FARMER.—The December number of this old and valuable agricultural monthly is received. A new volume commences with the January number. Now is the time to subscribe. The "Genesee Farmer" is the cheapest agricultural and horticultural journal in the world. Only half a dollar a year for a volume containg three hundred and eighty-four large octavo pages, with an index and title page suitable for binding! No farmer or fruit-grower should be without an agricultural and horticultural journal, and we can confidently recommend the *Genesee Farmer* to our readers as one of the very best published. Send the fifty cents in three cent postage stamps and take the *Genesee Farmer* for one year. You will not regret it. Address JOSEPH HARRIS, Rochester, N. Y.

PRAIRIE HOTEL.—As will be seen by reference to our advertising columns, this House is open for the reception of travelers. It is, decidedly, a first class hotel, and those wishing to find a comfortable and pleasant place to rest the weary limbs and aching head, without being obliged to ride in a 'buss full a mile and a half, will do well to remember the Prairie Hotel. The proprietor, Mr. JOHNSON, is fully awake to the interests of his customers, and does all in his power to make his house what it ought to be—a home to the weary, way-worn traveler.

DEATH OF A FIREMAN.—FREDERICK LEWKE, an old member of Hook and Ladder Company No. 1, died on Friday last. The flag of his Company was hoisted at half-mast, during Saturday, and his remains were followed to the grave by a large number of his fellow firemen yesterday afternoon.

The Seventh Ward Market House.

MR. EDITOR:—In answer to the enquiry contained in a recent number of your paper in relation to the nature of the right under which the present occupants of the Market House now hold possession, we would state: *First*, that when the Aldermen and Councellors of the First and Seventh Wards proposed to leave the Market House to Capt. George, he (Capt. GEORGE) was to execute a bond to the aforesaid Aldermen and Councellors in the final sum of $2,000, to secure the faithful performance and stipulations contained in the contract. This bond was *never executed.* Consequently Capt. GEORGE *never had any lease. Secondly*, had Capt. GEORGE executed the bond as provided—he had no right or authority to *underlease* any part of said Market House—as will be seen from the following extract of the lease, which recites as follows:

"And the said lessee doth promise and agree not to "underlease" any part of said premises, (viz: the Market House,) without the written consent of the lessors, and the lessors may enter to view the premises and expel the lessee, if he shall fail to pay the rent, or *underlease* the said premises, or any part thereof, without the *written* consent of the lessors."

No consent was ever given to Capt. GEORGE to underlease, consequently the occupants of the Market House have no right to occupy the premises, or any portion thereof, and can be ejected and expelled at any moment, and their only redress is to fall back upon Capt. GEORGE for any damages they may sustain in consequence of moving and vacating the premises.

THE Y. M. C. A. AND HARPER'S WEEKLY.—*Mr. Editor:*—A member who was *not* present at the last meeting of this Association, has made the discovery that it then and there entered the political arena. This will be news to those members who were present. They had, indeed, the assurance to think that a more dignified illustrated paper ought to be substituted for *Harper's Weekly*, and hearing of this, your wide-awake correspondent discovers that the Association has entered the political arena, and endorsed JOHN BROWN; following this logic, the Association endorses GOV. WISE, for it can boast of having the Milwaukee *News* and some other *Democratic* papers on its table, so your correspondent, having paid his dues, may take his choice.

As for intended withdrawals and prospects for a new Association, they have no existence except in the imagination of the gentleman who announces them, and who is evidently ready and willing to sacrifice any enterprise, however good, to the "Moloch" of Slavery. If however, your correspondent will form a new Association which can do more good, the present Association will with all its heart "bid him God speed;" but in the meantime, I would advise him not to misrepresent the action of the Young Men's Christian Association on this Slavery question, and behave generally as, if he were

STARK MAD.

WITH INTENT TO KILL.—A fellow was arrested on Friday, who had been doing his best to lay violent hands on somebody. He chased several people at night quite into their houses, and inflicted a great amount of pain on a number of citizens along the lake shore. We understand he came from up north somewhere, and that his name is Jack Frost. Since the proper officers have taken him in charge we have had a very delightful time.

SABBATH SCHOOL ASSOCIATION.—The regular monthly meeting of the Milwaukee Sabbath School Association is to be held *this* evening in the West Baptist Church, on Sycamore street between Third and Fourth sts. Mr. J. FORD will read an essay, after which the question "What is the best method of conducting the *exercises* of Sabbath Schools" will be discussed.

A CARD.—The thanks of the undersigned are respectfully tendered to the officers and members of Fillmore Engine Company No. 6, for their indefatigable exertions in saving my buildings, situated on Huron Street, which lay adjacent to the fire of Sunday morning, Dec. 4th, from being consumed by the flames. Long may she wear her motto—"WE CONQUER TO SAVE!"

LATEST NEWS!

BY LAST NIGHT'S REPORT

Congressional Proceedings.

WASHINGTON, Dec. 10—3 P. M.

Senate not in session to-day.

HOUSE.—Mr. Hickman, of Pa., moved an amendment to the journal, as no mention had been made therein of his resolution for the adoption of his plurality rule.

The Clerk said that the resolution was merely read for information.

Mr. Hickman said that he had the right to offer the resolution, which took precedence of all other questions.

Messrs. Grow, and Washburne, of Maine, contended that Hickman had a right to introduce the resolution.

Houston, of Ala., took the opposite side of the argument.

Mr. Stanton, of Ohio, said that the resolution could not be introduced now, as other questions were pending.

J. Reagan, of Texas, took occasion to say that the plurality resolution was designed to enable men to vote indirectly for a black republican when they would not come up like men and vote directly for such a nominee.

Hickman replied, that the remark did not apply to him; he should vote for a Republican in preference to any gent. who sustains the administration. (Applause on Republican side, intermingled with hisses from the other side.)

Reagan said nobody doubted the gent. would vote for the Republican as, against a Democrat. He repeated that the object of this unlawful attempt to act upon that resolution was to shield gents. from the responsibility of doing indirectly what they would not do directly.

Hickman—I have never conceded any where what my ultimate action would be.

I prefer the election of a sound Democrat—by that I mean a Democrat opposed to this administration—an anti-Lecompton Democrat. I have endeavored for a week to elect such a man, but I am beginning to fear that I shall be unable to consummate that work. I believe that either a friend of the Administration or a Republican is ultimately to be elected Speaker. I am frank to say, in that event, I have decided on the choice of the latter. I have offered this resolution for the purpose of reaching an organization. If the administration succeed, I trust I shall submit in a becoming manner.

I am perfectly willing that every man in the country should know my views. Let the motion to amend the Journal be put to the House to decide.

Mr. Smith, of Va., said that the motion was unnecessary, in his view of the subject. If the gentleman means to vote for the Republican nominee, he, and those thinking with him, can do so, and thus end the question. No man who has witnessed that gent's course for the last two years, could doubt that he would at last land in the Republican ranks. He says he wants a sound Democrat elected, and yet will vote with the Republicans. Who does he fool by such a doctrine as that? The members of the Democratic party are here to perform a high and holy duty to their country. I want him to be understood as a Black Republican, who only takes the name of Democrat for the purpose of hoodwinking and misleading. Let me ask him would he vote for Mr. Bocock to-day, if he would rise to say that he was opposed to the administration.

Mr. Hickman frankly and unequivocally replied that he would not, because Mr. Bocock sustained Administration in everything it has done. And he, Mr. H., was not a believer in eleventh hour repentance. (Laughter.) He would continue to regard himself as a Democrat, notwithstanding the remarks of the gent. from Virginia. It is a question that will be decided by the whole country, whether James Buchanan or those who hold to the sentiments of the Cincinnati platform in its integrity embody the Democratic sentiment.

A lengthy discussion ensued between Messrs. Horace F. Clark, of N. Y. and Wm. Smith, of Va., on political principles. Mr. Clark said he never was and never would be a sectional man. He was the representative of the great city of New York—a city which could not afford to send a sectional man to Congress. He did not regard the Republican party as an Abolition party. He defined Abolitionists as those who would interfere by violence with the relation of master and slaves. The recent affair at Harper's Ferry furnished a strong illustration of practical Abolitionism in its most hideous form. If those were Abolitionists who would contribute money or otherwise make compensation to the master for the service of his Slave, in consideration of the surrender of his title, he knew there were thousands of them at the North.

Mr. Smith said he was well acquainted with Mr. Clark and did not believe there was an abolition feeling in his heart or a drop of abolition blood in his veins. He said Mr. Bocock was not put up because he was an Administration man, but because he had been long an honored Democrat. He denounced the inconstancy of Mr. Clark's conduct in being elected as a Democrat and refusing to act with the party.

In answer to the inquiry put by Mr. Clark, whether Mr. Smith would deem it as good grounds for a dissolution of the Union, if he should find the people of the North combined as a sectional party against the South, Mr. Smith replied that whenever the combination of a majority is found for the purpose of warring on the Constitutional rights of any section of the Union, I am out. (Applause.)

Mr. C.—So am I, sir; but you have not answered my question.

Mr. Smith said he would not undertake to say if any particular man should be elected President, he would immediately favor a dissolution of the Union. "Sufficient for the day is the evil thereof."

Mr. Curry, of Alabama, made a lengthy speech on abolitionism; he did not propose to hold the Republican party responsible for excesses committed by men holding anti-slavery opinions. He did not intend to charge that party with complicity in the raid lately made into Va. He was willing to allow the mantle of ignorance to cover the act of signing of a recommendation of an incendiary pamphlet; but he made this averment that ideas and principles and politics of the Republican party are necessarily hostile to the constitution and to the rights and interests of the South.

The recent invasion made into Virginia, although disavowed and repudiated, and as he had no doubt honestly and conscientiously, by most of the gents on the other side, was, in his judgment, the necessary, legitimate and inevitable sequence of their principles and doctrines. He proposed to show the effect and the necessary consequence of this Anti-Slavery agitation and feeling.

The Republican party had been driven by events into the assumption of doctrines from which a few years ago they would have shrunk. Curry referred to the law in some of the States giving negroes the rights of suffrage, the operation of the Underground R. R., and the too frequent resistance of the Fugitive Slave Law, and argued that the South had good reason to be under apprehension, and, he asked, if you had the power of the government to abolish Slavery and render slave property insecure, would you not do it?

Killgore, of Ind., replied no; not in Southern States.

Curry.—Why, in Free States no legislation would be necessary; but you would gradually narrow and limit our grounds, until all would have to flee from the country of our occupancy and residence. I say boldly that the animating principle of the Republican party is opposition to the extension of slavery in the Territories. This is the ligament which binds this heterogeneous mass together; without that, you would fall to pieces at once.

Gov. Chase, in a recent speech, had suggested that every government official should be a person imbued with anti-slavery doctrines, and that that principle should become one of the tests for getting appointments. If the North elected Seward, or Chase, or any other member of the Republican party on a sectional platform, such an election was to be resisted to the disruption of every tie which binds together this great confederacy. (Applause from the Democratic benches.)

Curry referred to the recent Union demonstrations at the North. He said that though they were more or less qualifying as evincing a returning sense of justice at the North, yet they amounted to nothing, they were not the true index of public opinion, the test of public opinion was through the ballot box.—Mr. C. continued at great length.

Kellogg, of Ill.—I would do an insult to my feelings and sense of propriety, if I did not take the earliest opportunity to make an apology to this House, for the much to be regretted occurrence which took place in this hall yesterday. It was an offence to its dignity and a breach of its harmony and decorum, and for it I tender to this body my regrets and my apology.

Logan.—After what has been said by my worthy colleague, I conceive it to be my duty to say to this House, that if, in the excitement of yesterday, I molested any of the rules of this House, or its decorum, I regret it very much, and hope it will not tend to mar any of my relations with the members of this House.

John Cochrane, after this restoration of the *entente cordiale*, moved the House do now adjourn. Carried by a vote of 112 to 108.—Adjourned at quarter to three.

RUFUS KING, EDITOR.
MONDAY MORNING, DEC. 12, 1859.

A Week Wasted.

The first week of Congress has closed, as it commenced, in an exciting, unlooked for and profitless debate about Slavery. The subject was introduced in both branches, by leading Democrats, and the course of the discussion plainly shows that it was done for political effect. When Mr. MASON, in the Senate, offered his resolution for a committee to inquire into the Harper's Ferry invasion, with power to send for persons and papers, Mr. TRUMBULL, for the Republicans, promptly assented to it, and disclaimed all sympathy in JOHN BROWN'S raid upon Virginia. Senator WILSON followed in a similar strain, and had the object of Mr. MASON been simply what his resolution called for, these remarks of two leading Republican Senators should have satisfied the South and stopped the discussion. But that would not have suited the purpose of the Slavery "Agitators" and so the discussion went on, more and more angry, consuming the week, and ending, as it began, in talk.

Very much the same course has been pursued in the House. There too, as in the Senate, a leading Democrat made haste to toss the Slavery fire-brand into the arena, and at once lit the flames of personal and sectional discussion. While Mr. MASON and his Democratic colleagues, in the Senate, sought to make the Republican party responsible for JOHN BROWN, Mr. CLARK and his backers, in the House, endeavored to hold them accountable for the sentiments and statistics of "Helper's Impending Crisis of the South," a book written by a Southern man and addressed as well to Southern, as to Northern readers. The Democrats have been foiled in both these attempts by the prompt action and plain talk of the Republican members; but still persist in the discussion, though no possible good can result from it, much ill-feeling is engendered, and the business of the Session obstructed. And yet the Democratic press, so prone to complain of Republicans for unnecessarily agitating the Slavery question, have not a word of censure for their party friends in Congress, who have precipitated the discussion there, to the hindrance of the public business, the waste of time and money, and the kindling of sectional strife.

Senator Seward to be Hung.

The Hon. REUBEN DAVIS, representing a Congressional District in Mississippi, said, on Thursday, in the U. S. House of Representatives, that "Senator SEWARD was a traitor and deserved the gallows. Virginia has hung the traitor BROWN, and if they get hold of SEWARD, they will hang *him*."

These atrocious sentiments, instead of being rebuked by a single member of the Democratic party, were received with "applause from the Southern side."

The Democratic press are as silent as the Southern members. They have not a word to say in condemnation of Mr. DAVIS' truculent threat. But it is one that Mr. DAVIS and those who "applauded" him will find it exceedingly difficult to put in execution.

VERY TRUE.—The Charleston *Mercury*, about the ablest Southern paper, declares that "if the Charleston Convention shall meet, it is now clear that it will be, in its practical aspects, NOTHING BUT A SOUTHERN CONVENTION."

The *Mercury* goes on to state that, "on these great vital measures of policy the Southern portion of the Democratic party stand in direct antagonism to the Northern portion. *Their union as a party based on principle, is dissolved.* Supposing, therefore, that they were able to carry out their policy in the Northern States in the election of a President of the United States, with what propriety, consistently with duty, can Southern Democrats go into Convention with them for the nomination of a common candidate for the Presidency?"

The *Mercury* uses plain language. It gives the Democrats to understand, very distinctly, that if they attend the Charleston Convention at all, they must follow implicitly the behests of the South.

EFFIGY BURNING AND RIOT AT PRINCETON SEMINARY.—At the Princeton, N. J., College, where there are probably a considerable number of Southern students, a correspondent of the Philadelphia *Bulletin* says a large procession of the students was formed, carrying transparencies and banners, with such mottoes as "JOHN BROWN, the horse thief, murderer and martyr," "Down with SEWARD," "Down with HENRY WARD BEECHER."—They bore also two effigies, one of SEWARD and the other of BEECHER. The object of the whole movement was to burn these two agitators. The crowd and noise had called out the college faculty in force, but they were driven back and one or two of them roughly handled. Finally the effigies of Messrs. SEWARD and BEECHER were consigned to the flames in front of the College and in presence of a large crowd of spectators, and accompanied by several speeches. After this manifestation of feeling the students quietly dispersed.

ANOTHER VETO COMING.—The Washington correspondent of the New York *Herald*, a zealous Administration organ, thus notifies us that President Buchanan is preparing another pill for the North-west:

> A VETO MESSAGE FROM THE PRESIDENT.—The President has prepared a veto message, which will shortly be communicated to Congress, upon the St. Clair Flats bill, which was passed a few days before the adjournment of the last Congress. It is an able an clear document, and lays down the Democratic doctrine which the President has always maintained, of opposition to internal improvements by the federal government.

Of course what else have we to expect from this National Democratic Administration? How could Mr. BUCHANAN, consistently with "Democratic doctrines," sign such a "Sectional" bill as the one providing for the St. Clair Flats.

NEW YORK CITY ELECTION.—The vote at the recent charter election in New York, for Mayor, Corporation Counsel and Alms House Commissioner, was as follows:

For Mayor.—Opdyke (Rep.) 22,715; Wood (Anti-Tammany) 30,339; Havemeyer (Tammany) 26,813.

Counsel.—Hall (R.) 21,914; Bronson (A. T.) 32,204; Tilden (T.) 24,092.

Commissioner.—Pinkney (R.) 24,792; Lynch (A. T.) 27,490; McElroy (T.) 21 221. Pinkney (R.) and Lynch (D.) are the Alms House Commissioners elect.

The vote for GREENE C. BRONSON, as Corporation Counsel, was a flattering one.

THE SPECIE EXPORT OF THE UNITED STATES.—The New York *Journal of Commerce* says it could have been ascertained at the commencement of the year, that the foreign shipments of specie from this port for eleven months would amount to nearly sixty-eight millions of dollars, nothing but ruin and disaster would have been apprehended, and yet this amount has been actually sent away, leaving nearly twenty-five millions still on deposit in the banks and subtreasury. We anticipated large exports of coin and bullion, and did look for greater stringency in the money market than has resulted from this un precedented movement of coin; and have to confess that we are agreeably disappointed at the result.

THE CUBAN SLAVE TRADE.—A correspondent of the New York *Herald*, writing from Havana, says, the slave trade is very active and increasing. A clipper-built Baltimore vessel recently landed 560 at the Bajia de Mario, within half a mile of a Spanish war steamer which was lying at anchor there, and marched through Trinidad under the very nose of the Governor, who made not the slightest effort for their arrest. They were sold immediately for upwards of $800 each.

A WIFE'S LETTER.—The Postmaster General has recently been called upon to decide a novel question. A husband who had been separated from his wife, demanded that his village postmaster should deliver her letters to him, and threatened a suit at law if his demand was not complied with. The wife, on the other hand, forbade the delivery of her letters to the husband. In these circumstances the postmaster appealed to Mr. HOLT for instructions.

The Postmaster General says—the precise question raised by this state of facts has never before been presented to this Department, which affords gratifying proof that there is no prevailing disposition on the part of American husbands to enlist the support of the postal authorities in endeavors to intercept and violate the correspondence of their wives. He directs the delivery of the letters to the wife, and says the husband's view of marital power might well find a place in the code of the Grand Turk, and would possibly be submitted to in his harem, but it is repugnant to the teachings of American jurisprudence.

SPECIE EXPORTS.—The exports of specie from New York to foreign ports for the week ending the 3d inst. were $716,642—making a total since Jan. 1, 1859, of $67,804,733; same time in 1858, $24,191,786; same time in 1857, $38,299,187; same time in 1856, $35,326,454; same time in 1855, $26,579,877; same time in 1854, $37,082,081; same time in 1853, $23,033,003; same time in 1852, $23,776,571.

The specie export of the year, from the port of New York alone, will exceed *seventy millions*. This is a heavy drain upon the country. A judicious tariff would turn the tide and keep our specie at home.

A Schoolmaster on Trial for Pulling his Pupil's Hair.

From the Norwich Courier, Nov. 29.

The following case was tried and decided in Norwich, Conn., last week:—Henry C. Bailey brought an action of trespass for assault and battery against Alonzo A. Palmer. Defendant, in the winter of 1855, was a teacher in a public school in North Stonington, and plaintiff was one of his pupils. On the 12th of December last, plaintiff violated certain rules of the school, and defendant called upon him to leave his seat and come up to the desk occupied by the defendant. The plaintiff refused to come or did not move to come, and thereupon defendant went to plaintiff, seized him by the hair and collar, dragged him out of his seat, led him to the teacher's desk and ferruled him.

The plaintiff claimed that the defendant used unnecessary force and improper means to get him out of his seat, thereby injuring his head, neck and side, and loosening large quantities of his hair. Defendant claimed that he used no improper means, and only such force as was necessary to overcome the resistance made to him by the plaintiff, and preserve order and authority in his school; and that plaintiff was not injured in the manner or extent claimed. A large number of witnesses were introduced on each side, and the evidence was very conflicting. With regard to the powers of teachers and the duties of scholars, Judge Sanford charged the jury substantially as follows:

1. That the teacher of a public school has the right to establish rules and regulations for the government of his school, provided that the same are reasonable and necessary for the maintenance of discipline, the preservation of order, and the enforcement of proper subordination in his school.
2. That he is clothed with power to use all means that are reasonable to enforce those rules and regulations that are proper and necessary for the good government and well being of his school.
3. That in case of open insubordination and refusal to obey his lawful commands, he may exercise all the reasonable force that is necessary to supress such insubordiation, and to compel obedience to such lawful commands.
4. That whether the rules of the school were reasonable and necessary for its proper government; whether the plaintiff violated these rules; and whether the means resorted to by the teacher to subject the pupil were improper and the force he used unreasonable and greater than the exigencies of the case demanded, were questions offered for the jury to determine.

The jury, after a brief deliberation, rendered a verdict for the defendant. Halsey and Pratt for plaintiff; Wait and Starkweather for defendant.

THE NEW YORK MUNICIPAL ELECTION.—The *Journal of Commerce* gives the following graphic account of the events of the day:

"At the moment of sunrise, 7.10 o'clock, the polls were opened, and there was an immediate rush of artisans and laborers to get in their votes and be off to their day's work. It was evident from the *queues* which began to stretch out into the streets, and rapidly lengthened, that the vote was to be a heavy one, even for the most exciting of all municipal contests—a Mayoralty election.

The managers, runners and general "fuglemen" of the various parties were on hand at an early hour, and had all their machinery in good order before the voting commenced. Every candidate who could afford it had his private and individual ticket booth, at which his friends were requested to meet. These frail structures were inhabited by, and their defences confided to stout, muscular gentlemen, who appeared perfectly competent to protect them.

The liquor stores were closed—theoretically and constructively (a part of the door and a half window being shut)—but grog-selling went on as usual, as was plain by the inebriated condition of the ruffian crowds who hung about the polls. Up to noon the rum had hardly got to work, and with the exception of a few knock-downs and the upsetting of several ticket booths, nothing occurred to demand the interference of the police.

The police arrangements heretofore mentioned, were admirably adapted to crush out the mob. The military array was also invoked with great effect. The marching of the Seventh Regiment, through the streets, in full uniform, to the State Arsenal, and to the respective company head-quarters, convinced the ruffians that law and order would be maintained at all hazards.

A similar wholesome effect was caused by the parade of a detachment of 50 men from the Eighth Regiment, to take charge of the City Armory in Elm street. The soldiers were reconciled to their imprisonment by abundant rations furnished by the city.

The machinery of the Registry Law worked quite smoothly. Intelligent persons, who had not been registered, came up to the polls fortified by affidavits and house-holders; and those who were not thus prepared were supplied with them by the party with which they sympathized. Commissioners of Deeds were present from every party to furnish the necessary affidavits; and "householders" were to be had for the mere asking. It was in this way, if any, that frauds were committed. The number of voters not registered was very small comparatively.

LACONIC CORRESPONDENCE—BUT VERY EXPLICIT.—The following interesting correspondence went through the post office, a few weeks before election. The writers are "among the knowing and the known" in the State:

———, Oct. 15, 1859.

DEAR JUDGE:—I am a candidate for Senator. If you would come into the district, and make two or three speeches, it would help the cause"—of Yours truly, — — ———.

———, Oct. 17, 1859.

DEAR COLONEL:—I'll come with pleasure, *providing you'll promise to be half honest* if elected. Yours, — — ———.

———, Oct. 20, 1859.

DEAR JUDGE:—I must go into the Senate *unpledged*. Yours, — — ———.

The Judge made the speeches and the Colonel was elected *unpledged*.—*Albany Statesman*.

THE GRANDSON OF TECUMSEH.—The grandson of Tecumseh is now living in Natchez, Mississippi. He is a well educated and accomplished gentleman, having traveled over a greater part of Europe. He is a physician, and is said by the *Free Trader* to be an excellent one. In his pharmacopeia is a lot of medical herbs, the secret of whose curative powers he derived from his grandmother, who was a great "medicine" woman.

THERE ARE GIANTS in these days. Bourbon county, Kentucky, possesses a family, consisting of man, wife and eight children, whose average height is 6 feet 4 1-2 inches. A deceased daughter was 6 feet 3 inches in height.

A Wonderful Invention.

The discovery at present attracting the greatest attention in the scientific world is that of Professor Hardinge, of New York.—He has, after a series of experiments, extending through several years, discovered the art of liquifying quartz, and has established an extensive apparatus for the purpose, which is now in successful operation. If this invention becomes, as is expected, practically useful, there can be no limit to its qualities of adaption, and something little short of a revolution in mechanical matters must follow the realization of all the plans of the inventor. With the world at large, we have faith in nothing but practical evidence, and in that only when it has stood the test of time.

The following from the pen of Prof. A. C. Fleury, a chemist of note, residing in New York City, explains this invention, and what is expected of it. Under date of Nov. 1st, Prof. Fleury remarks:

"I was honored with an invitation to visit the works of Professor Hardinge, at 104th street and Broadway, New York, near his residence at Woodlawn, and saw him dissolve one ton of quartz at a time in a single digester, containing about one thousand gallons of water. The digester holds over three thousand gallons, and is capable of discharging six thousand gallons of 'liquid flint' every day. The liquid quartz which I saw dissolved is chemically pure, and the solution perfect; the liquid forming a thick pellicle when heated and exposed to the air, though it may be preserved any length of time in close reservoirs in the same liquid state. My attention was drawn towards Professor Hardinge about two years ago by an article on this subject, occupying over four columns of the New York *Tribune*, and signed by a number of eminent European chemists. Professor Hardinge has been for many years laboring to perfect his vast purposes; and I hereby stake my reputation, as a man claiming some scientific knowledge to judge of the fact, that he is now ready to build a city of the most durable as well as most beautiful stone which it is possible for the human mind to conceive, walls of variegated conglomerate, lined with colored porcelain (painted in fresco,) fire-proof roofs, moulded statuary of the richest and hardest kind, with the aforesaid liquid flint as a base.

"The question may be asked, 'What has been Mr. Hardinge's object in getting a digester of such enormous caliber as to weigh, with its appendages, nine tons?' One great object as will be seen, is to dissolve two tons of quartz regularly in water at a time, thus treating six tons every day in a single digester, showing how to secure every particle of gold in auriferous quartz, be it fifty dollars to the ton, or a thousand Whoever examines his process will find that not a particle of the precious metal can get away. There is neither washing nor amalgam, and the solution of this quantity of quartz in water would give 6,000 gallons of liquor of flint per day from a single digester, with the silex in far greater excess than has ever been achieved before."

"The next question arises, 'What is to be done with 6,000 gallons of liquid flint daily from a single digester?' I answer that presses of quick delivery can be erected along the Hudson or elsewhere, under banks of silicious sand and conglomerate, where tens of thousands of tons can be rapidly moulded into beautiful and durable building stone; the silicic acid being saturated during the process of solution, with a base in conformity with a similar law which spontaneously moulded the conglomerate pillars in the Capitol at Washington, costing the nation so much money. Common sand may be moulded into building blocks through the agency of this base, which will not disintegrate by the action of the weather.

"Mr. Hardinge is in correspondence with His Imperial Highness Prince Jerome Bonaparte with reference to the immediate adoption of his process in moulding the silicious sand in Egypt for the locks and canal of Suez, so as to diminish the vast expense to at least one half the cost of quarrying and hauling the granite from distant mountains.

"The most beautiful building stone, where palatial grandeur is the aim and object, can be made by an admixture of quartzose rock, broken in small pieces, combined with white pebbles from the shores of Long Island, moulded as above, faced and polished with the flint-varnish, prepared in such a way as to be impervious to the action of the weather. Such conglomerate stone, interspersed with silvery, shining scales of mica, together with the variegations caused by a variety of mineral oxyds in the angular pieces, in contradistinction from the white, semi-translucent pebbles, would form the richest conglomerate that the mind could conceive.

Tens of thousands of gallons of this liquid flint, combined with substances having synthetical affinity, will be used for inside walls, plain and in fresco; also in stucco ornaments and in moulded marble, chalcedony, &c.—Every variety of rock can be reproduced, richly and cheaply variegated at pleasure by mineral oxyds. Vast quantities will also be shortly called for to saturate thousands of those drab sand stone houses which are being built in this and other cities; because this peculiarly open, granular stone is liable to fill with water in a winter's rain, and suddenly freeze and chip off.

"It would be too voluminous to mention here the many applications of this material; suffice it to say, the result of many long years of the experience of Mr. Hardinge may now be looked for, not only for the gratification of his friends, but to set forever at rest all doubt on the part of the public at large.

A SAMPLE OF "CHIVALRY."—The Richmond Daily *News*, of Dec. 3d, indulges in the following language about the hanging of JOHN BROWN:

EXECUTION OF OLD BROWN.—At 15 minutes past 11 o'clock yesterday morning, this old nefarious sinner expiated his most unholy crimes upon the gallows. He dangled in an element for some time entirely too pure for his loathsome carcass, and stenched the atmosphere with that polluted breath which had given vent to his fiendish purposes.—Those limbs, that were made to be governed by thoughts of such hellish deeds, must have writhed in agony; and those eyes, while starting in their sockets, could but too plainly see the black scroll before them that had planned the mode of consummating his murderous intent. But it is over, and the voice of the fallen angel hails with extatic delight an addition to its myriads of hell-infatuated demons. But it is all over, and Charon has his oars all set and his sails to the breeze, to transfer this welcome passenger across the dark waters of the Styx. But it is all over, and the cold-blooded heart of this would-be destroyer of his own race, is being warmed up by the sulphurous blazes of eternal woe. But it is all over, and a Union-loving people shout their hallelujahs, and sing their "*gloria in excelsis*" for the consummation of the penalty.

Various opinions have been expressed as to the disposition of his body after death—some contending that it should not be delivered to his friends at the North, others to the contrary. We say, let them have it, and for many reasons—among them not the least prominent is, that we could not see the soil of Virginia defiled by being the receptacle at such filth—horse manure and guano would reject association with it; grass would refuse to sprout in the bosom of the fertile fields of the valley, and the scavenger of our country, the noble buzzard, would be driven from our State by the pestiferous stench of his carcass. Send him to the North by all means. There let the wooden nutmeg Yankee, in his speculative propensities, convert his bones into buttons and tooth-picks, and tooth-powder; his sinews into hoops for women's skirts, and his muscles into elastic bands for Northern saw-mills. They will sell with rapidity, and be purchased up as relics of the "martyr Brown." Take him away! we want none of him! we've had enough already, and can't stand the thought any longer of his being on our soil!

HENRY WARD BEECHER'S
SERMONS,
REVISED BY THE AUTHOR,
WILL APPEAR IN
The Independent
EVERY WEEK.

THIS ANNOUNCEMENT ALONE should be a sufficient inducement to thousands to send their subscriptions.
The conductors of this paper aim to make it the most influential and useful religious newspaper published in this country. To this end they employ an array of Editors, Special Contributors, Regular Correspondents, Miscellaneous Essayists, Commercial Reporters, and other writers, each of whom contributes a valuable and indispensable part of every weekly number.
In addition to this, arrangements are now in progress by which THE INDEPENDENT, for the coming year, will be made still more interesting and attractive.
A wider range of good reading will be introduced, and the paper will be printed throughout with new type.
It is intended that any one of the following departments of the paper, viz: the Sermons of
HENRY WARD BEECHER,
the Contributions of the
Rev. GEO. B. CHEEVER,
the Poems of
JOHN G. WHITTIER,
the Commercial Articles and Market Reports, Editorial Articles, or the Family Reading, shall be worth more than the entire subscription price for one year.
We are happy to announce that our subscription list is increasing more rapidly than ever before, and as a special inducement to our readers we will say, that for every *two new subscribers* sent us with $5, we will credit the party sending the same with one year's subscription.
The friends of THE INDEPENDENT in all sections of the country will favor the cause in which we are engaged, by using their influence to extend our circulation.
Terms, $2 a year in advance.

CITY AUCTION ROOM.

I HAVE THE FOLLOWING PROPERTY which I want to exchange for Dry Goods, or any other description of Goods:
First—A good Farm in Juneau County, Wisconsin; twenty-five acres under fence and in cultivation; a log cabin, such as we all were accustomed to live in when we first came to this country, twenty-five years ago; a good stream of water running thro' the entire farm; 40 acres of it is heavy timber. A large settlement surrounds the said farm.
Second—I have that large brown house, opposite Post Office on Wisconsin st., which contains about twenty-five rooms and rents for about one thousand dollars.
Third—I have two horses, one perfectly sound, kind and gentle; the other is somewhat foundered; but take the pair together and they make a good team for family use. Also, in connection, I have a carriage, buggy, wagon, sleigh, two sett harness, two side saddles, two mens' saddles, three bridles, whip, &c., &c.
Fourth—I have three hundred acres of school land in Marquette County, Wis. This land has been selected, at all other school lands. Now, all the above property I will exchange for Dry Goods, &c., or for any good city property. The said property is free from all incumbrances. CALEB WALL,

PILES! PILES!! PILES!!!

What is it? How Cured?

THOUSANDS OF PERSONS HAVE PILES—suffer for years with the disease—yet few know what it is, or how it is cured. Every case of Piles, whether manifested in the form of external tumors, frequent bleeding, or in violent itching and irritation, depends essentially upon congestion of the abdominal venous circulation. This produces the engorgement dilation of the veins, formation of tumors, hemorrhages, pain and suffering: and the disease can only be fundamentally cured by medicines which, taken internally, relieve this abdominal venous congestion. Hence, ointments, washes, and even injections, are ineffectual. HUMPHREYS' HOMEOPATHIC PILE SPECIFIC, a simple sugar pill, taken two or three times per day, cures the disease by curing the condition upon which the disease depends. Hundreds have been cured by it, even of the most obstinate cases. All will be promptly benefitted by it. Price 50 cents a box.

N. B.—A full set of HUMPHREYS' HOMEOPATHIC SPECIFICS, with Book of Directions, and twenty remedies, in large 3-drachm vials, and morocco case, $5; do, in plain case, $4. Family case of fifteen boxes and book, $2.

These remedies, by the single box or case, are sent by mail or express, free of charge, to any address, on receipt of the price. Address,

EVENING.

Westward they dart along,
The birds all flying low,
And hearts so full of song
With sweet notes overflow.

The workman's labor o'er,
Dear thoughts of home begin—
His younglings at the door,
Love's waiting eyes within.

Gently through evening's blush,
The gathering shadows close,
And wildest thoughts grow hush
In such divine repose.

Pure floats the Summer air;
Pure, under Heaven's blue dome,
Night, with bejeweled hair,
Sits throned a queen at home.

Life's day, how sweet and bright,
Thus could it melt away—
Pass beyond realms of night,
And find immortal day!

Agricultural.

WHEEL VS. SWING-PLOWS.—The writer of the article "Agricultural," in the last edition of the *Encyclopædia Brittannica*, considers wheel-plows much superior to swing-plows. He says:

"Ever since the introduction of Small's improved swing-plow, the universal belief in Scotland, and to a considerable extent in England, has been, that this is the best form of the implement. Wheel-plows have accordingly been spoken of by Scottish agriculturists in the most depreciatory terms, and yet it turns out that this has been nothing better than an unfounded prejudice. For when subjected to careful comparative trial, as has been frequently done of late, the balance of excellence is undoubtedly in favor of the plow with wheels. Its advantages are, that it is easier of draught—that the quality of its work is better and greatly more uniform than can be produced by a swing-plow—that in land rendered hard by drought, or other causes, it will enter and turn over even furrows when its rival cannot work at all, or at best with great irregularity and severe exertions of the plowman. This last quality has indeed been urged as an objection to wheel-plows, as their tendency is to produce a class of inferior workmen. Those who know the difficulty of getting a field plowed uniformly, and especially of getting the depth of furrow specified by the master adhered to over a field, and by all the plowmen, can best appreciate the value of an implement, that when once properly adjusted will cut every furrow of an equal width and breadth, and lay them all over at exactly the same angle. In every other art the effects of improved machinery is to supercede manual dexterity; and it does seem absurd to count that an objection in agriculture which is an advantage in everything else. There is more force in the objection that wheel-plows are inferior to swing ones in plowing cloddy grounds, or in crossing steep ridges. This objection vanishes when it is known that in the most improved wheel-plows, the wheels can be laid aside at pleasure, and that they can then be used in all respects as swing-plows."

TO DESTROY THE PEA-BEETLE OR BUG.—A correspondent of the *Country Gentleman* says that putting the peas in a tight vessel, and mixing two ounces of pulverized camphor, or a table-spoonful of sulphuric ether, to each bushel of peas, will effectually kill all the bugs in them in a few days. This is a remedy often published before, and worth repeating, if true.

OPEN VS. COVERED DRAINS.—Mr. Mechi thus explains the cause why covered drains are more effectual than open ones: "A deep, open ditch will not drain the adjoining soil; because, when the sides are dry, the water rises to the surface by capilary attraction and thus heads back the water behind it. Lay pipes at the bottom of this ditch, and fill it up, and will then effectually drain the adjoining soil."

TYING UP CATTLE.—"Tamworth," in the *Stock Journal*, condemns the practice of tying up cattle, and says animals that are much confined, besides their poor health for want of exercise, have loose, porous, course flesh, with comparatively relaxed, and therefore light-weighing, muscular fibre; and much of the space which should be filled with muscle, or lean meat, is supplied with loose, light-weighing fat, size in excess is *not* a sure index of proportionate extra weight; for many middle-sized animals of compact form and hardy constitution are really much heavier, bulk for bulk, than larger animals.

WILL PLOWING IN CLOVER EXHAUST THE SOIL?—In answer to this question, we have space this month to mention only one important fact, brought to light by the experiments of Lawes and Gilbert:

It was found, that to grow a crop of turnips, clover, etc., more available inorganic matter is needed in the soil than is required for a crop of wheat. Thus, on the same kind of soil on which a crop of wheat of fifteen bushels per acre was annually obtained for ten successive years, without any manure, turnips, the second and third years, did not grow larger than radishes; yet, supplied with superphospate of lime, this soil annually produced good crops of turnips. We have, then, the remarkable fact that, while the ash of wheat contains five times as much phosphoric acid as the ash of turnips, the turnips requires for its growth the presence in the soil more available phosphoric acid than is required by the wheat plant.

From this it follows that a soil will be sooner deficient of inorganic matter for a crop of turnips, clover, or peas, than it will for wheat; and that these crops contain more organic matter than is required by the increase of wheat produced by their ammonia. It follows that so long as we can grow clover and peas, we need not fear any deficiency of the ash constituents of wheat.—*Genesee Farmer.*

HORN AIL, OR HOLLOW HORN.—The New England *Farmer* says there is no such thing; it is merely an incorrect ailment which has nothing to do with the horns. Standard writers on veterinary practice also hold the same opinion. Dadd ascribes the symptoms which attend horn ail, to a general derangement of the health of the animal, and recommends the use of purgatives, and to stimulate the digestive organs and the circulation by aperients and stimulating liniments.

ITALIAN BEES.—The Ohio *Cultivator* gives an account of some bees recently imported from Europe by Colvin, of Ohio. They are said to be superior in many respects, to the common bee. They are more industrious and lay up a larger store of honey. The queen is more prolific; consequently, more swarms are raised each year.

A BLOODLESS VICTORY!!!

1,000,000 BOXES SOLD OF
MOREHEAD'S
MAGNETIC PLASTER

THIS ENORMOUS QUANTITY OF this invaluable Remedy has been purchased by citizens of the United States during the short time it has been before the public. The reason for this extraordinary success is simply in the actual truth and value of the article. No one buys the MAGNETIC PLASTER without becoming its friend. It perform all that is promised, and carries with it its own recommendation. Truly this is a Victory—peaceful and bloodless—but we believe not less glorious than the triumphs of war, with its train of carnage and desolation.

The MAGNETIC PLASTER is undoubtedly the Greatest Strengthener and Pain Destroyer that Science has yet discovered. If you put this Plaster anywhere, if Pain is there, the Plaster will stick there until the Pain has vanished. The Plaster magnetises the Pain away, and

PAIN CANNOT EXIST WHERE THIS PLASTER IS APPLIED.

Rheumatism, Lameness, Stiffness, Weakness, Debility, Nervousness, Neuralgia, Dyspepsia, Coughs and Colds, Pains and Aches of every kind, are IMMEDIATELY RELIEVED, and, with a little patience, PERMANENTLY CURED, by the magical influence of the MAGNETIC PLASTER. It is the simplest, surest, safest, pleasantest and cheapest remedy in existence. Its application is universal—equally to the strong man, the delicate woman, and the feeble infant. Its use is agreeable, and without annoyance or trouble. Its price is within reach of all—rich or poor; all may have it, and all should have it who are sick, and suffering in any way.

FARMERS and PLANTERS should always be supplied with the MAGNETIC PLASTER. It will be the Good Physician in any household, ready at all times and at instant notice.

Put up in air-tight tin boxes. Each box will make six to eight plasters, and any child can spread them. Price, twenty-five cents per box, with full and plain directions. D. C. MOREHEAD, M. D.,

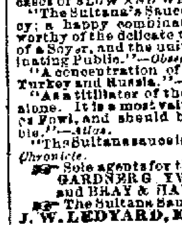
SOYER'S SULTANA SAUCE.

For Hot or Cold Dishes of all Kinds.



THIS MOST DELICIOUS and appetising Sauce was invented by the renowned "SOYER," on his return from the Crimea, and since his decease is manufactured by CROSSE & BLACKWELL, London, from the original recipe. The manufacturers simply ask for it a trial, convinced that it must add to the already large consumption, and that it will prove itself unequaled, either as a stimulant to the appetite or an aid to digestion.

Opinions of the London Press

"We recommend our correspondent to try MONSIEUR SOYER's new Sauce, entitled the 'Sultana's Sauce.' It is made after the Turkish recipe; its flavor is excellent, and it affords considerable aid in cases of SLOW AND WEAK DIGESTION.—*The Lancet.*

"The Sultana's Sauce is savory, piquant, and spicy; a happy combination of flavors and essences worthy of the delicate taste of a Sultana, the genius of a Soyer, and the universal patronage of a discriminating Public."—*Observer.*

"A concentration of all the piquant resources of Turkey and Russia."—*United Service Gazette.*

"As a titillater of the appetite this Sauce stands alone. It is a most valuable adjunct to Fish, Flesh, or Fowl, and should be placed on every dinner table."—*Atlas.*

"The Sultana sauce is a most delicious zest."—*Morn Chronicle.*

Richardson's Irish Linens, Damaks,

DIAPERS, &C.—CONSUMERS OF RICHARDSON'S LINENS, and those desirous of obtaining the GENUINE GOODS, should see that the articles they purchase are sealed with the full name of the firm, J. N. RICHARDSON, SONS & OWDEN, as a guarantee of the soundness and durability of the Goods.

This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season, and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine Goods, will not readily abandon a business so profitable while purchasers can be imposed on with Goods of a worthless character.

BININGER'S OLD LONDON DOCK GIN

A. M. BININGER & CO.,
(ESTABLISHED 1778.)
SOLE IMPORTERS,
No. 338 Broad Street, New York.

THIS DELICIOUS TONIC, ESPECIALLY for the use of the
Medical Profession and the Family,

Possesses those INTRINSIC medicinal properties, [Tonic and Diuretic] which belong to an

OLD AND PURE GIN.

The business of manufacturing spurious Gins, and offering them as beverages, under the titles, "Aromatic," "Cordial," "Medicated," &c., has become so common that the public are justly suspicious of nearly everything that is offered under similar forms, and the trade has thus been brought into disrepute. It has remained for our house (established in 1778) to supply the pressing popular need, and to inaugurate a new era in the history of the Trade. We trust that our established reputation—founded upon eighty years of experience—abundantly vindicates our claim to public confidence.

N. B.

A comparison of "Bininger's Old London Dock Gin" with others bearing similar names, will establish its superiority, and make other Caution unnecessary.

Put up in Quart Bottles, in Cases of one and two dozen each, and sold throughout the world by Druggists, Grocers, &c.

Not much done in the produce markets to-day. A few hundred barrels of flour sold at $4,25@4,50 for common to good Spring Extra. Receipts of wheat being insufficient to meet the demand for milling, prices advanced again to-day, Extra Club selling at 95@100c and No. 1 at 91c on the track, and 95c delivered.—Sales are noted elsewhere.

CHICAGO, Dec. 9th.—Receipts: 1,001 brls flour; 6,327 bus wheat; 5,292 bus corn; 1,991 bus oats; 1,745 dressed hogs; 2,770 live hogs; 321 cattle.

The flour market was quiet but firm. There was a good inquiry for Spring extras, but the offerings were small. The sales were limited, at $4 10@5 00 for low grade to choice Spring extras, and $5 75 for Indiana white Winter. Under a good milling and shipping demand for wheat, the market advanced 1@2—sales of No. 2 Spring being made at 95½@97c in store, and club at $1 03 on track. Corn also improved 1@1½c, with sales at 39@40c for No. 1 in store; 32c for rejected in store; and 40c for old No. 2 in store. Oats scarce and in demand, with an advance of 1½c—sales being made at 33½@33¾c in store and 35c on track. Rye in good demand at 75c. Barley quiet and firm. Under a shipping inquiry for highwines the market is firmer, but sales are still made at 21c. Hides unchanged. Timothy seed in fair request and steady.

The unsettled state of the market at Cincinnati and Louisville, and the large receipts, frightened some of our buyers out of the market, and during the past three days prices have had a downward tendency, losing about all that was gained in the early part of the week. The weather, however, has been favorable for keeping dressed hogs, and sellers, as a general thing, would not accede to any material decline except on light averages. To-day the market was pretty steady at $5,75@6 for good round lots averaging 200 pounds and upwards, and $5,25@5,60 for light averages. The sales reported under the head of our market review will show the variations of the market during the week.

The Chicago *Press & Tribune*, of Saturday, says:

The decline in Cincinnati during the past two days, as well as the mildness of the weather, had a depressing effect on the market for dressed hogs to-day, and a decline of 25c took place. Early several lots were sold as high as $6 12½@6 30; but towards noon buyers held off, and the market became perfectly flat—good heavy hogs selling at $5 75@6 00. Towards evening, however, there was rather more anxiety to buy, but there was no visible improvement in prices. Live hogs were not so depressed although we have also to note a decline of about 5c—the sales ranging from $4 60@5 25 gross. For heavy hogs the market was tolerably active at $4 85@5 00 at which figures there were free sellers; but one lot of extra, averaging 318 lbs brought as high as $5 25.

The market for provisions was rather tamer than during the two previous days; but there is no actual decline. The stock is so small that holders do not show any anxiety to sell; while there are a good many orders on the market not yet filled. Round lots of mess pork would bring $16 00; but holders refuse to sell at that figure. For February delivery $16 50 was offered and refused. In green meats, there were sales of 10,000 hams on private terms (reported as a full price) and green sides and shoulders at 6½c and 7½c, for small lots. For salted meats there is a good demand but buyers and sellers are apart. Lard is good request at 10c, with sales of 200 bbls at Milwaukee at that figure. Holders, here, however, are firm at 10¼@10½c. Tallow is firmer, and we report a sale to-day at an advance of ½c—10½c.

MARINE INTELLIGENCE.

SATURDAY EVENING, December 10th.

THE D. & M. LINE.—The propeller *Cuyahoga*, of the Detroit and Milwaukee Railway Line, arrived to-day with some 250 tons of merchandise and 35 passengers. She will leave on her return trip to-day, taking over a cargo of flour, pork, &c. The *Cuyahoga*, not being able to carry more than half the freight coming over the Line, we understand that the Company are about chartering another steamer to run in connection with the *Cuyahoga* until one of the steamships is ready.—The alterations being made in the *Detroit* are progressing rapidly, but the painting and finishing off the upper cabin will require some time yet, and it is feared that the *Milwaukee* may not be got off the bar until ice forms around her sufficiently strong to enable them to work to advantage.

JUNIUS JUDSON,
PATENTEE AND MANUFACTURER OF
JUDSON'S PATENT
GOVERNOR VALVES,
FOR REGULATING THE
MOTION OF STEAM ENGINES,

WARRANTED THE MOST PERFECT Governor of Steam Power in the world, and like all really great inventions, the most simple. Manufactured by Judson & Snow, at Rochester, N. Y., Selye Buildings, near R. R. Depot.
☞ Shop Rights for sale.

CAUTION TO INFRINGERS.

Patent issued in the United States, Nov. 5th, 1859. Reissued, Jan. 4th, 1854. Second Patent, March 4th, 1851. Patented also in Great Britain and the Canadas, June 6th 1851.

This improvement consists in making regulating valves so open with a rapidly increasing ratio of opening, by increasing the width of the opening made in the valve—or by accelerating the opening motion of the ordinary valves in use—or by combining increased width of opening, with accelerated valve motion. My patent Valves and Governors are so arranged as to give the resistance to the piston's motion, (or retard of the engine,) the power to open the valve just the exact amount of aperture necessary to counteract that resistance; and from the aperture, by the addition of equal amounts of resistance, notwithstanding that the action of the governor is continually decreasing in its effects.

I therefore reverse the action of valves combined with governors, as heretofore used. And as this effect can be produced by many different mechanical devices, (apparently not similar, but really indentical with my improvement,) by which infringers have imposed upon the public, I therefore caution and request all persons interested, to examine carefully all alleged improvements in valves or governors, to see if the application of this truth or principle, first discovered and applied by me, is not involved in their arrangements:—and thereby prevent a fraud upon the purchaser and inventor, both of which are at present much annoyed by their piratical depredations. Medical.

THE GREATEST
MEDICAL
DISCOVERY
OF THE AGE.

MR. KENNEDY, OF ROXBURY, HAS discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR,
FROM
THE WORST SCROFULA DOWN TO A COMMON PIMPLE.

He has tried it in over eleven hundred cases, and never failed except in two cases, both thunder humor. He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the stomach.

Three or five bottles are warranted to cure the worst kind of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three or four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, Mass.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of the diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother.

NURSING SORE MOUTH,

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers: and the Medical Discovery becomes a fountain of blessings to your husband and household.

In the more advanced stages of

CANKER

it extends to the stomach, causing

DYSPEPSIA

which is nothing but canker on the stomach; then on the intestines and

KIDNEYS

creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is

RAW AND INFLAMED,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follows a train of diseases which the Medical Discovery is peculiarly adapted to

CURE;

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also that most excruciating of diseases the

PILES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "an ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY

you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,
DONALD KENNEDY.

DR. CHURCHILL'S REMEDY.
WINCHESTER'S GENUINE PREPARATION OF THE
HYPOPHOSPHITES
OF LIME AND OF SODA,
(Made from the Formula of Dr. J. F. Churchill,)
FOR THE PREVENTION AND CURE OF
CONSUMPTION!

THE SUCCESS OF THIS NEW REMEDY, (discovered by Dr. Churchill, of Paris,) is obtaining the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases.

This *Remedy* has not only a curative effect, but will, if used wherever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act, *as a preservative with regard to Consumption, just as vaccination does with regard to small pox.*

What the Medical Profession Say.

"In no instance have I found the Remedy to fail."—*Dr. Churchill.*

"I have used your preparation of the Hypophosphites *with the most happy effect*."—*C. Fisher, M. D., Lyville, Ill.*

"*I have been astonished in witnessing the good effects of the Hypophosphites.* The statements in your pamphlet are not at all exaggerated. My patient was just entering the last stage of tubercular consumption."—*S. Moses, M. D., Hoosic Falls, N. Y.*

"They exert an important remedial influence over the tubercular disease by *improving the nervous strength and invigorating the nutritive functions.*"—*Dr. W. E. Rust, Morristown, N. J.*

"I have derived more satisfaction from the use of your Hypophosphites *than from all other forms of medication combined.*"—*Dr. Geo. W. Maris, Columbus, O.*

"If, on the earliest appearance of the symptoms, the patient takes daily about ten grains of the Hypophosphites, he will speedily find himself in the enjoyment of such health as he, perhaps, had never known in his life before."

"Winchester's Hypophosphites are unexceptional in their preparation."—Am. Druggists' Circular.

"Mr. Winchester is worthy of all confidence, and devotes himself enthusiastically to these preparations in all their variety of combination. * * * Prepared strictly by Dr. Churchill's method."—D. Meredith Reese, M. D., New York.

"LOWELL, O., July 5, 1859.—I have had several cases given up by attending physicians who are now exempt from all the symptoms of pulmonary disease.—I have used the Remedy in my own case, with decided success. It was regarded as hopeless by physicians and friends, and even by myself, under the 'old treatment.' I am now able to ride, in attending the sick, as many miles, perhaps, in a day, as any other physician in the country."—W. F. Clark, M. D.

THE
GREAT WONDER
Of the Nineteenth Century,
PROFESSOR WOOD'S
HAIR RESTORATIVE.

SAYS THE ST. LOUIS, (MO.) DEMOCRAT: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic.—Such evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no enconiums, nor useless puffery from the press:

BATH, MAINE, Jan. 20, 1856.

Professor O. J. Wood & Co:

GENTLEMEN: Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has resumed its natural color, and I believe more soft and glossy than it has been before for twenty-five years. I am now sixty years old; my good wife at the age of fifty-two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly, yours, A. C. RAYMOND.

Baltimore, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood—Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever in New Orleans in 1854, I was induced to make a trial of your preparation, and found it to answer as the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure. FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally loved. WM. DYER.

Brookfield, January 12, 1858.

Professor Wood—Dear Sir: Having made a trial of your Hair Restorative, it gives me pleasure to say that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.
Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium and small; the small holds ½ a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion and retails for $3 a bottle.
